

Fleet Marine Force Atlantic/U.S. Marine Corps Forces Command Headquarters & Service Battalion Mission Analysis

ACCOMPLISH THE MISSION

KEEP OUR HONOR CLEAN

The fundamental element of Headquarters, Fleet Marine Force Atlantic/U.S. Marine Corps Forces Command and associated units is its **PEOPLE**. The command has nominal facilities, vehicles, weapons, and equipment. Its major contributions are the activities, policies, and initiatives advanced by the personnel assigned to one of our forty-three monitored command codes. And so, *enabling the people of FMFLANT/MARFORCOM is our primary mission.*

The Marine Corps is our nation's rapid reaction force, and **READINESS** is essential to each Marine. HQSVCBN is therefore responsible to ensure continuity of headquarters operations and to promote every deployable Marine's administrative, medical, and training readiness. This task includes maintaining and improving the command's infrastructure; supporting continuity of operations activities; stewarding resources; and ensuring personnel are properly accounted for, paid, retained, promoted, educated, assigned and equipped, and meet all medical, dental, and training requirements to deploy whenever called.

Marines provide our nation with the most ready and the most disciplined force. As such, HQSVCBN ensures **GOOD ORDER AND DISCIPLINE** within the command's 43 MCCs. Commensurate with this responsibility includes administering just punishment and awards; promoting security, safety, and good stewardship; and implementing policies which enhance mission accomplishment while upholding our Core Values.

Being an esteemed **COMMUNITY MEMBER** in Hampton Roads reinforces our service's commitment to our Navy counterparts and our fellow citizens. As Commander, Camp Elmore, this includes collaborating with local organizations to facilitate readiness, increase meaningful inter-service engagement, and foster long-term contributions to the Fleet and community. Responsible for the Hampton Roads Marine Corps Community Services, HQSVCBN augments local fleet and family services programs, helping Marines and their families enjoy healthier, more productive lives in the community. Finally, as part of the relatively small contingent of Marines in the region, we must preserve the public's trust that Marines remain an elite organization which vigorously maintains high standards of performance and conduct.

M.R. REID
Colonel, U.S. Marine Corps
